ATS Modules

The **ATS Core** Installs on a laptop or pc and provides a windows interface to your data via an internet connection.

The **ATS Quick Med Check** installs on a laptop or pc and provides a “quick entry” interface to your data via an internet connection.

A browser version is available as well

The **ATS Smartphone** Works with cell phones capable of running an internet browser giving staff the ability to do 30+ daily functions without having to return to the office.

The **ATS Athlete Phone** works with cell phones capable of running an internet browser giving athletes the ability to report an injury, check rehab schedules, contact staff and more.

The **ATS Core Portal** is a browser-based application allowing staff to do all the day-to-day functions, and more, that they can do with the ATS Core.

The **ATS Kiosk** is a check-in station allowing athletes to view treatments and exercises for a given date.

A browser version is available as well

The **ATS Athlete Portal** is an internet web portal for athletes and/or parents to register online; complete forms, update information; demographics, medical history, pre-participation and more...

The **ATS Family Communications Center** is an internet web portal for parents/guardians to register and update their athletes.

The **ATS Sports Schedule** shows team schedules entered via the appointment screen and will be shown on the internet for parents/athletes to view.

Highlighted Features

Hydration Alert Log (HAL)

- Enter starting & ending weights; then “calculate”
- Set 2 warning levels for weight change
- Monitor whole teams or individuals
- Data entry via tablet, phone or PC/Laptop

Secure Messaging

In accordance with the NATA “Best Practices Guidelines for Athletic Training Documentation” messages section we are happy to provide the ability for staff to securely communicate with athletes in an encrypted & logged manner.

Data Miner

In addition to the 400+ reports in ATS we also have a “Data Miner” available so your administrator, or users if given access, can select & export data to Microsoft Excel.

Concussions

We believe that there is no such thing as “too much” information for evaluating & treating concussions. To that end we have a variety of information available in ATS; including the SCAT5, BESS, SAC & more.

Private Records

There is a growing need for an additional layer of security for information...marking them “private” for situations such as mental health issues. ATS includes this in a variety of areas.

Third Party Billing

As the industry continues to change and Athletic Trainers are able billing becomes more important. ATS has partnered with a company to help our clients move into this area as needed.

Current Pricing

One-Time Cost(s)**		
ATS Suite	1 User	\$ 695.00
	2+ Users	\$ 995.00

Total startup cost	\$ 1,635.00

Prices are in US Dollars and are subject to change

* For ATS purposes; a "user" is defined as someone entering or updating information. This typically includes athletic trainers and strength/conditioning coaches

It does not include anyone with read-only access rights, students or doctors.

** 1-time purchase is a license to use the ATS Software as long as the annual fees are maintained.

* Annual Support is included in the hosting fee

* On-site installation is not included

* Customers outside of the United States must "Self Assess" and pay any applicable taxes

* Initial purchase includes 2 hours of training via a GoTo meeting

* One-time purchase price is non-refundable
