✓ Athlete multi-function update
ATS Modules

- **ATS Desktop** a Windows application that is installed on a laptop or PC and provides a windows interface to your data via an internet connection. *Now with the ability to use larger text on screens.*

- **ATS Staff Portal** is a browser-based application allowing staff to do all the day-to-day functions, and more, that they can do with the ATS Desktop.

- **ATS Quick Med Check** provides a “quick entry” interface to your data via an internet connection. This can be used for such things as one-on-one sessions and more.

- **ATS Kiosk** is a browser-based check-in station allowing athletes to view treatments and exercises for a given date. This replaces your paper treatment log.

- **ATS Staff Phone** is a web-based portal that gives your staff the ability to do all daily functions without having to return to the office. This includes 40+ functions ranging from adding athletes, sideline concussion evaluations, modalities/rehabs, eFiles and health screenings.

- **ATS Athlete Portal** is a web-based portal for athletes to register online; complete forms (and electronically sign them), update information; demographics, medical history, insurance information with card images, emergency contacts and more. This is accessible via a tablet, computer or phone.

- **ATS Family Communications Center** is a web-based portal that allows parents/guardians to register and update information for all athletes linked to their account.

Nightly Sync with other software
ATS now has a process that allows our clients to sync information from other software systems to their ATS database.

Data Miner, ROI
- In addition to the 700+ reports, the “Data Miner” allows you to select & export data to Microsoft Excel.
- Our ROI reports show productivity and validation for staff and equipment.

Concussions
To better protect our clients and student athletes, our concussion module stands above the industry offering 6 customizable evaluation templates built around the SCAT5, BESS, SAC, VOMS & more.

Billing for Services
As the industry evolves and Athletic Trainers are able to bill and get reimbursed. We have partnered with a company to help our clients move into this area as needed.

View Your Data Multiple Ways
- 700+ reports for all areas.
- Data miner.
- Injury Analytics.
- Admin dashboard.
- Screens on your laptop, PC & phone.

Coaches are able to...
- Securely access athlete information (emergency contacts, insurance, paperwork) from their phones.
- Communicate with athletes or parents securely.
- Can receive automated report(s)
- Can receive timely updates on injuries
- Easily communicate with medical staff
- See paperwork & cleared-to-play status
- See injury, practice & game status
