✓ “Quick” functionality
✓ ATS Kiosk & Monitoring
✓ Auto-email for injuries, notes & limitations
✓ Bulk Modality
✓ Modify Athlete
✓ Pre-made note and online form templates
✓ Athlete multi-function update
ATS Modules

- **ATS Core** installs on a laptop or PC and provides a windows interface to your data via an internet connection.

- **ATS Core Portal** is a browser-based application allowing staff to do all the day-to-day functions, and more, that they can do with the ATS Core.

  - **ATS Quick Med Check** installs on a laptop or PC and provides a “quick entry” interface to your data via an internet connection. This can be used for such things as one-on-one sessions and more. *A browser version is also available*

  - **ATS Kiosk** is a check-in station allowing athletes to view treatments and exercises for a given date. This replaces your paper treatment log. *A browser version is also available*

- **ATS Smartphone** is a web-based portal that gives your staff the ability to do all daily functions without having to return to the office. This includes 40+ functions ranging from adding athletes, sideline concussion evaluations, modalities/rehabs, eFiles and health screenings.

- **ATS Athlete Portal** is a web-based portal for athletes to register online; complete forms (and electronically sign them), update information; demographics, medical history, insurance information with card images, emergency contacts and more...

  - **ATS Athlete Phone** is a web-based portal that gives athletes the ability to communicate with staff securely, report an injury, check/request appointments, complete online forms, view announcements, view rehabs and more...

  - **ATS Family Communications Center** is a web-based portal that allows parents/guardians to register and update their athlete(s) information.

- **ATS Sports Schedule** is a website that shows team schedules entered via the appointment screen making it easier for parents/fans/athletes to view.
Hydration Alert Log (HAL)
- Monitor pre/post practice weights for one or two practices.
- Set 2 warning levels for weight change.
- Changes are calculated automatically; athletes needing attention are identified.
- Monitor teams or at-risk individuals.
- Enter info by tablet, phone or PC/Laptop

Secure Messaging
In accordance with the NATA “Best Practices Guidelines for Athletic Training Documentation” messages section we are happy to provide the ability for staff to securely communicate with athletes in an encrypted & logged manner.

Data Miner
In addition to the 700+ reports the “Data Miner” allows you to select & export data to Microsoft Excel.

Concussions
To better protect our clients and student athletes our concussion module stands above the industry offering customizable features built around the SCAT5, BESS, SAC, VOMS & more.

Private Records
As information becomes more sensitive; to protect our clients and student athletes we offer our "private record" functionality to protect student athlete info from falling into the wrong hands or being seen by anyone who is not authorized to do so.

Third Party Billing
As the industry evolves and Athletic Trainers are able to bill and get reimbursed it is important for us to help facilitate this process. For that reason we have partnered with a company to help our clients move into this area as needed.

Example Startup Costs (2-8 Users)

- One-Time Purchase $ 995.00
- 1st Year Hosting or Support (2-8 users) $ 640.00

Total startup cost $ 1,635.00

Prices are in US Dollars and are subject to change

- Annual Support is included in the hosting fee.
- On-site installation is not included .
- Customers outside of the United States must "Self Assess” and pay any applicable taxes.
- Initial purchase includes 2 hours of training via a GoTo meeting.
- One-time purchase price is non-refundable .

* For ATS purposes; a "billable user" is defined as someone entering or updating information. This typically includes athletic trainers and strength/conditioning coaches. It does not include anyone with read-only access rights, students or doctors.

Note: Graduate Assistants working in an outreach program are considered billable users

** 1-time purchase is a license to use the ATS Software as long as the annual fees are maintained.

*** Annual fees shown are for our standard database configuration. Having the database encrypted "at rest" is an option and doubles the annual fee.

The Athletic Trainer System®
COVID-19 Screening

- ATS’ COVID-19 info can be entered by athletes and staff.
- Athletes can receive daily emails/texts to complete a symptom profile.
- Athlete entries can generate an email alert to staff.
- You have the ability to screen your staff.
- You have the ability to screen guest athletes.
- ATS has a wide variety of reports showing details or alerts.
- Test and results may be tracked for each athlete.

Enter screening info for athletes before a practice or event using your laptop, tablet or phone.

Staff screening info can be entered daily or as needed.

Athletes complete a daily COVID-19 form on their laptop, tablet or phone.

Tests and results

We are happy to make available our “Sports Medicine Plan for Treatment”

via our online staff forms
Athletic Trainers enter a treatment plan.

This plan may then be reviewed by a physician and literally “signed” by them to authorize treatments.

Note:
Treatment Plans are also vital if you are using or consider using billing-for-services.
