

## Try Before You Buy

We are often asked “how can I try your software?” Below are the three methods currently available. Our goal is to allow potential ATS clients the chance to “kick the tires”.

### \* Participate in one of our “Demo Days”

A one-hour web meeting giving an overview of our entire system; allowing time for Q & A. Each module is discussed as well as the interaction between them.

**Note:** Email [demodays@athletictrainerssystem.com](mailto:demodays@athletictrainerssystem.com) for more information

### \* Make use of one of our “Regular” demos

We set up a login for you in our demo system and database. This offers all the features of a “live” installation.

### \* Do a 120-day evaluation

We set up a database for you to use “for real” for 120 days. You may use all of the available modules.

- If you decide to make a purchase at the end of 120-days (or before) we “do the paperwork” and there is no interruption of your work.
- If you decide not to make a purchase we delete the database.

**At the stadium**

**On your phone**

**On campus**

**At the field house**

**Note:** In addition to the above “demo” methods we will also schedule question and answer web meetings as needed with staff from potential clients.
