

Two of our goals with ATS are to save Athletic Trainers time and money while making data entry as easy as possible. Along these lines we are happy to give our clients the ability to use QR codes to create labels and also ID cards.

With our QR code process clients can create their own ID cards that can be used with a QR reader to automate the login process in **BOTH** the ATS Kiosk Windows and ATS Kiosk Web modules...

Terms of Use for QR Codes

Keffer Development Services provides the ability for your organization to create custom QR Codes for your athletes. However, we do not assume any legal responsibility for their use and the information included.

QR Code Sample Text:

Note: Large amounts of data will not scan properly unless larger images are used for printing

Our QR code screen allows our clients to customize the content for their QR Codes. Depending on the amount of information used labels can be printed in one of two sizes.
