ATS - Third Party Billing Intro & Overview

Like the other parts of ATS we have made the billing process flexible and user-friendly while making data entry as quick & easy as possible.

- **Rehabs & Modalities are entered by your medical staff**
- **Claims are created using our claim utility**
- **Claims are submitted for payment by our billing partner; Physicians Billing & Consulting**
- **An eFile, HCFA-style, copy of the claim information sent is saved in the injury and athlete area(s).**
- **PBC tracks payments received and those outstanding. Reports are available for these**
