

# Review/Sign Athlete Forms

A number of our clients have asked us about having the ability to review forms entered by athletes and have a physician and/or staff member "sign off" on the form.

We are pleased to announce this ability is now available in the ATS Core module. In addition to a signature the ability to add notes at the same time is included.

Here is a general flow on how the process works.

Athletes complete forms online:

Under the athlete screen, quick athlete form screen or physician/staff review the applicable form is chosen and viewed:

The applicable form is shown in the report viewer

A PDF copy of the form, complete with the signature & notes is saved as an eFile in the athlete's profile.

After the form is reviewed the signature icon is clicked... and any applicable notes are entered.
