ATS Modules

- **ATS Desktop** installs on a laptop or PC and provides a windows interface to your data via an internet connection.
- **ATS Staff Portal** is a browser-based application allowing staff to do all the day-to-day functions, and more, that they can do with the ATS Desktop.

- **ATS Desktop Quick Med Check** installs on a laptop or PC and provides a “quick entry” interface to your data via an internet connection. This can be used for such things as one-on-one sessions and more. *A browser version is also available*
- **ATS Desktop Kiosk** is a check-in station allowing patients to view treatments and exercises for a given date. This replaces your paper treatment log. *A browser version is also available*

- **ATS Staff Phone** is a web-based portal that gives your staff the ability to do all daily functions without having to return to the office. This includes 40+ functions ranging from adding patients, sideline concussion evaluations, modalities/rehabs, eFiles and health screenings.
- **ATS Patient Portal** is a web-based portal for patients to register online; complete forms (and electronically sign them), update information; demographics, medical history, insurance information with card images, emergency contacts and more...

- **ATS Patient Phone** is a web-based portal that gives patients the ability to communicate with staff securely, report an injury, check/request appointments, complete online forms, view announcements, view rehabs and more...
- **ATS Family Communications Center** is a web-based portal that allows parents/guardians to register and update their patient(s) information.

- **ATS Sports Schedule** is a website that shows team schedules entered via the appointment screen making it easier for parents/fans/athletes to view.

Highlighted Features

Full circle communication

- Group email/text messages for non-staff.
- Secure message to athlete, contacts & staff.
- Appointment reminders.
- Covid self-eval notifications.
- Group notices for staff.
- Batch reports for coaches/staff.
- Batch notes for emergency contacts.

Covid Screening

ATS allows for screening of all types of patients. They may be emailed/texted daily to enter a self-evaluation. Test results may be entered or imported. Vaccinations may be tracked as well.

Data Miner

In addition to the 700+ reports, the "Data Miner" allows you to select & export data to Microsoft Excel.

Concussions

To better protect our clients and student Athletes, our concussion module stands above the industry offering customizable features built around the SCAT5, BESS, SAC, VOMS & more.

View Your Data Multiple Ways

- 700+ reports for all areas.
- Data miner.
- Injury Analytics.
- Admin dashboard.
- Screens on your laptop, PC & phone.

Third Party Billing

As the industry evolves and Athletic Trainers are able to bill and get reimbursed, it is important for us to help facilitate this process. For that reason, we have partnered with a company to help our clients move into this area as needed.

Current Pricing

Mike Berry, MS, LAT
314-598-1663
mpb@rev-athletics.com

One-Time Cost(s)**		
ATS Suite	1 User	\$ 695.00

36+	Call	

Example Startup Costs (2-8 Users)	
One-Time Purchase	\$ 995.00
<i>Includes All Current Modules</i>	
1st Year Hosting or Support (2-8 users)	\$ 640.00
Total startup cost	\$ 1,635.00

Prices are in US Dollars and are subject to change

- Annual Support is included in the hosting fee.
- Customers outside of the United States must "Self Assess" and pay any applicable taxes.
- Initial purchase includes 2 hours of training via a GoTo meeting.
- One-time purchase price is non-refundable .
- The standard eFile limit is 1mb per file. A larger limit is available. Call for pricing.

* For ATS purposes; a "billable user" is defined as someone entering or updating information. This typically includes athletic trainers and strength/conditioning coaches. It does not include anyone with read-only access rights, students or doctors.

Note: Graduate Assistants working in an outreach program are considered billable users

** 1-time purchase is a license to use the ATS Software as long as the annual fees are maintained.

*** Annual fees shown are for our standard database configuration. Having the database encrypted "at rest" is an option and doubles the annual fee.
