## Highlighted Features

### Full circle communication

- Group email messages for non-staff.
- Secure message to athlete, contacts & staff.
- Appointment reminders.
- Injury Journal to show history.
- Group notices for staff.
- Automated reports for coaches/staff.

### Data Miner, ROI

- In addition to the 700+ reports, the "Data Miner" allows you to select & export data to Microsoft Excel.
- Our ROI reports show productivity and validation for staff and equipment.

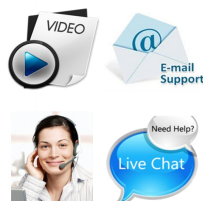

### Nightly Sync with other software

ATS has a process that allows our clients to sync information from other software systems to their ATS database.

### Concussions

To better protect our clients and student athletes, our concussion module stands above others in the industry. ATS offers customizable evaluation templates built around the SCAT and includes VOMS testing.

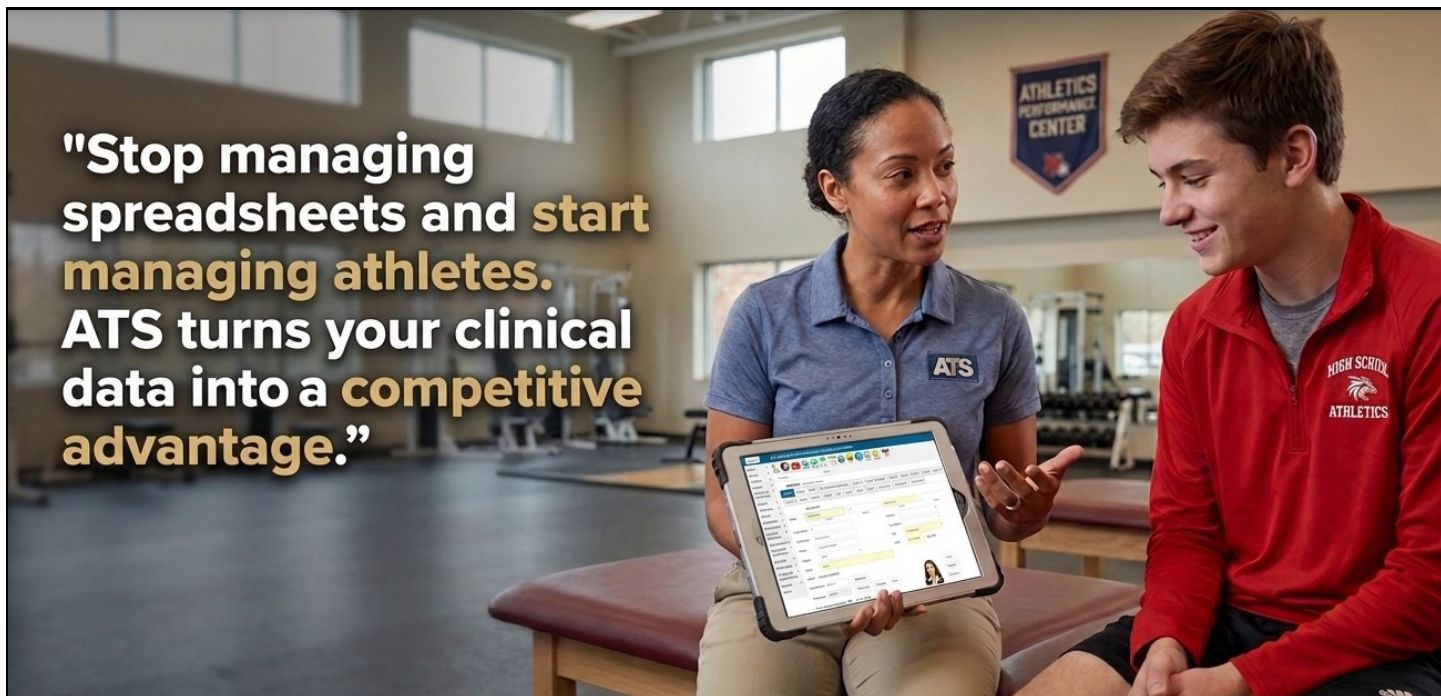

**CUSTOMER SERVICE**  
IS NOT A DEPARTMENT.  
IT IS AN ATTITUDE.

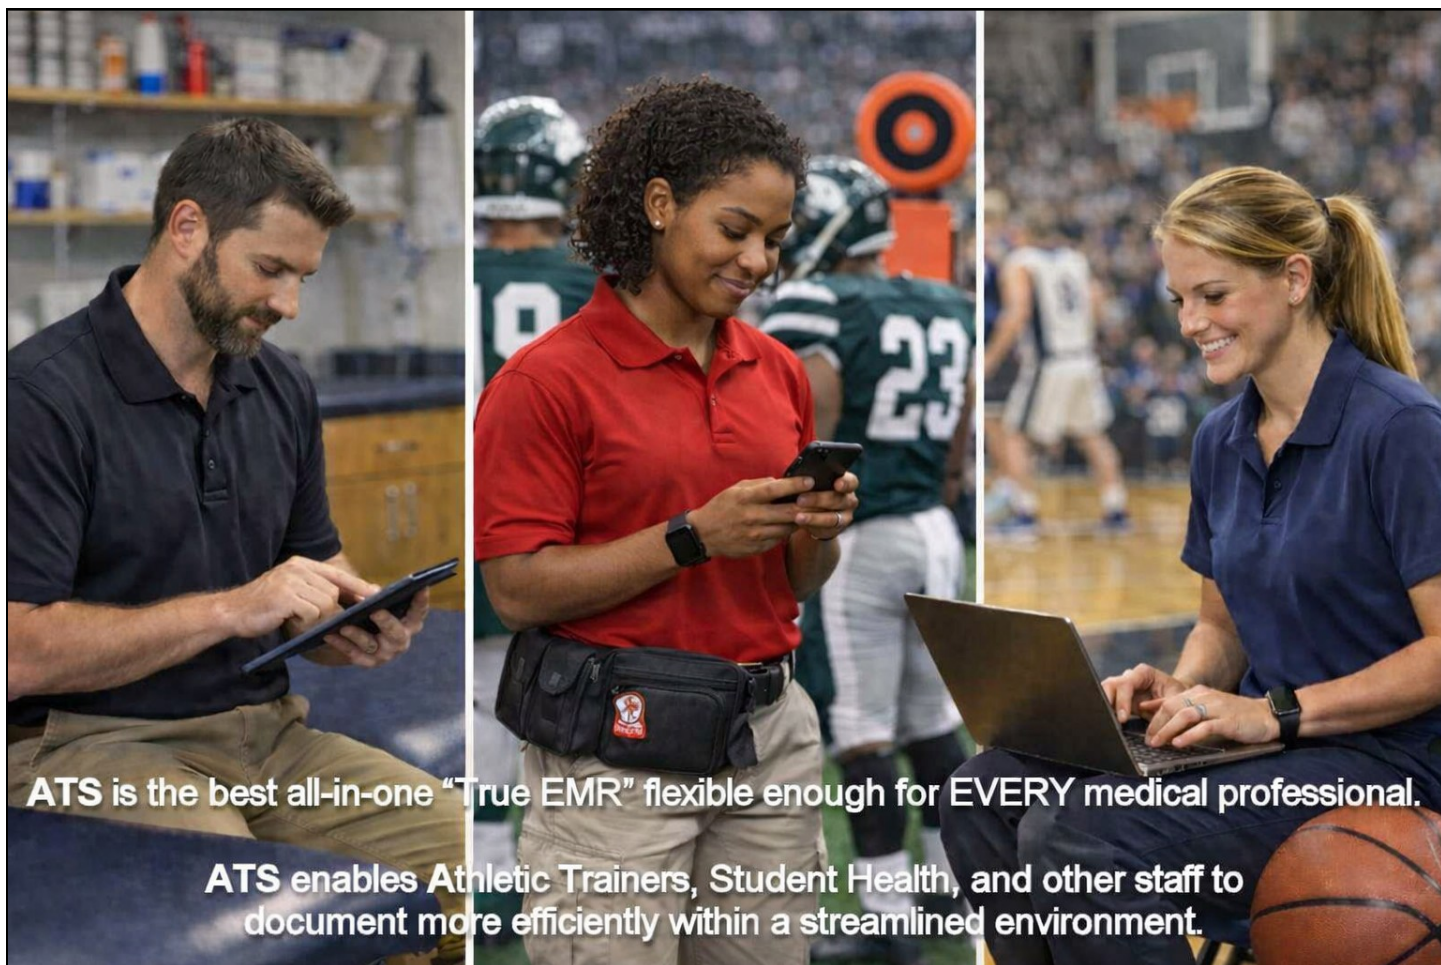

### Customer support is one of ATS' highest priorities

Your feedback helps us improve. If you're encountering any problems with the program, we'd appreciate hearing from you so we can resolve them. We also welcome suggestions for new features or enhancements - contact us anytime by phone or email.

**"Stop managing  
spreadsheets and start  
managing athletes.  
ATS turns your clinical  
data into a competitive  
advantage."**

## **Access Real-Time Data** **24x7x365**

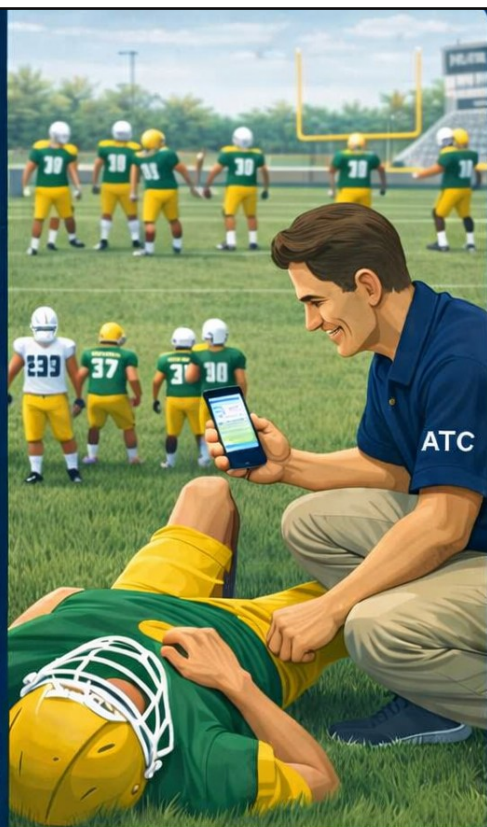

**ATS is the best all-in-one "True EMR" flexible enough for EVERY medical professional.**

**ATS enables Athletic Trainers, Student Health, and other staff to document more efficiently within a streamlined environment.**
