

# The Athletic Trainer System®

## Make ATS Yours

ATS is designed for use by a single high school AT, to outreach programs with hundreds of staff. Most parts of ATS can be customized to best fit your needs. Some highlights are shown in this document. Our goal is to provide every athletic trainer with the tools and flexible data entry method they need to save time while documenting so they can spend more time actually caring for their athletes, or spending time at home.

Enable or Disable features by putting a check mark beside it. Each person using the system has control of the icons as well.

These are only 3 of the many possible combinations available to you through the configuration process.

Customize the buttons on your smartphone to aid in faster data entry.

Use the drop-down lists below to choose the icons for the smartphone. This process will also set the icon order, so your most often used icons can be 1st, etc.
