

# The Athletic Trainer System®

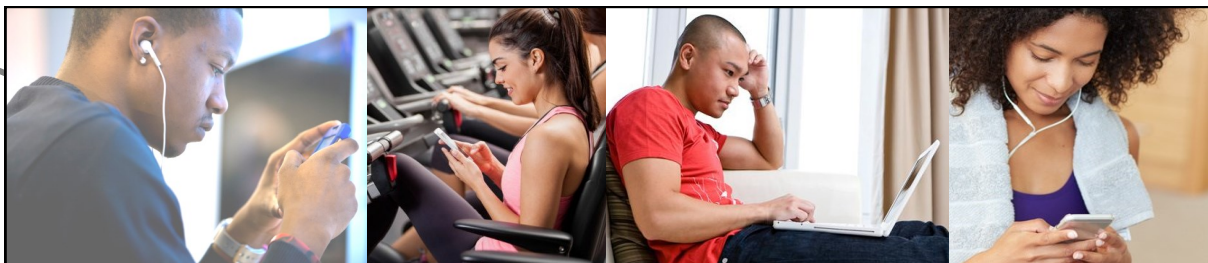

In accordance with the NATA “Best Practices Guidelines for Athletic Training Document” messages section we are happy to provide the ability for staff to securely communicate with athletes in an encrypted & logged manner.

## ATS Secure Messaging Functionality

Here is how it works

- A **secure message session** is initiated by a staff member or an athlete...
- A notice is sent to the recipient that they have a new message...
- The message is reviewed and a response sent if desired.
- A conversation is established.

**All messages are accessed via an encrypted connection and are maintained in the database for reference and/or review.**
